### **DETAILED ACTION**

Claims 1-19 are presented for examination.

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8 and 18-19, drawn to data access augmentation processing, classified in class 707, subclass 2.
- II. Claims 9-13, drawn to query formulation, classified in class 707, subclass 4.
- III. Claims 14-17, drawn to enterprise application processing, classified in class 707, subclass 104.1.

The inventions I, II and III are related as sub-combinations disclosed as usable together in a single combination. The sub-combinations are distinct from each other if they are shown to be separately usable.

In the instant case, invention I (data access processing) has separate utility such as access disparate data sources. Invention II (query formulation) has separate utility such as formulate query and present results in an integrated format. Invention III

Art Unit: 2161

(enterprise application processing) has separate utility such as manipulating data in a client/server environment

Because these inventions are distinct and search groups I, II and III are not required to be simultaneous which would raise a serious burden for the examiner, therefore, restriction for examination purposes as indicated is proper.

A telephone call was made to applicant's attorney – Botjer, William on 10/26/06 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(l).

Applicant is reminded that the reply to this restriction election to be completed must include an election of the invention to be examined within one month from the mailing date of this office action, even though the requirement be traversed (37 CFR 1.143).
